

Monday, March 21, 2022

As of this date, the Province of Ontario has lifted COVID-19 mask mandates for most public spaces in Ontario. This change applies to our space and services at 254 Pall Mall St.

Screening is no longer required to enter our space; **but we ask that you refrain from visiting if you are not feeling well and are displaying any symptoms of or have been in contact with any person who has recently had or displayed symptoms of Covid-19.**

LFCC and NavOn request that you act in the best interest of safety regardless of your masking choice. This request means that:

- *You will respect each individual's decision about masking;*
- *We ask that you also respect the wishes of our employees / consultants and be prepared that they may be masked when providing services to you.*

We continue to sanitize each space after use to protect and encourage good health for all of us.

Please continue to sanitize your hands upon entry.

Thank you,

Management and Staff of LFCC/NavOn
